

## Management Information

---

Keeping you and your fleet information up to date

BT Fleet's Management Information System delivers operational and management reporting when you need it.

Available through a customer portal, you can access a suite of standard reports, performance summaries and fleet information. Additionally, you can develop your own reports, using powerful 'Data Filter' functionality, which can be saved and subsequently refreshed with new data.

Through our 'Live Work in Progress' portal, you can view details of individual service events, allowing you to manage operational resources in a real-time environment. In addition, our Accident Management service offers online access to all records and images for individual claims.

You can rely on BT Fleet to provide the fleet information you need.

Our service includes:

- 24/7 online accessibility
- Comprehensive operational & management reports
- Performance summaries
- Fleet information
- 'Live Work in Progress' tracking
- Online accident claim information
- Report download capability in Microsoft compatible formats
