

## Vehicle Build Management

---

Customised vehicles to meet your needs

BT Fleet's Vehicle Build Management service offers tailored solutions that deliver the vehicle you need at the right price. Vehicles that are built to suit your specific needs can increase operational efficiency and reduce running costs.

Our team of highly experienced commercial vehicle engineers will gain a thorough understanding of your requirements in order to develop the optimum solution for your business. And with our buying power we can also help you achieve greater costs savings by sourcing through our network of partners.

You can rely on BT Fleet to develop and deliver vehicles to the exact specification you need, consistently and cost-effectively.

Our service includes:

- Development of functional specification
- Supplier selection
- Build management & testing
- Shakedown trials
- Vehicle handover management
- Quality inspections
- Training programme development
